Happy Hour

The Halloween fun rally and Twisted Fairy Tales party was a great success. Gary Greer and Bob Meyer had imaginative decorations and their costumes were outstanding. The prizes for costumes were awarded to Robin and Jeff Pelszynski as Ferry Godfather and Cinderella, Linda and Jim Hallmark as the Pimp and his Lady, Katie and Bob Sanstead as the Queen of farts and the ? We had a delicious meal and entertainment by a magician/ventriloquist. The rally was well planned and easy but had some tricks to separate the winners from the rest. Gerry Curts and Suzy Holley got the most correct answers and were declared the rally winners. The best six scores were awarded a bottle of wine for their efforts at solving the questions.

November board meeting/membership meeting was held at Dave Whites on Friday the second. Saturday, November 10th was a Tech Session at Bert Smiths in St. Petersburg with good information and lunch in the shade. Several club members were fortunate to have their cars on the lifts for a free inspection. It was a well-attended event and a nice afternoon.

Later at Bert Smith's the Board of Directors had a planning meeting for 2002 events. Sharla will be firming up commitments and publishing the event dates in the Profile soon.

For more social interaction, the Board of Directors has decided to separate the Board/business meetings from the membership/social meetings. The membership/social meetings will be held at different venues to stimulate more interaction between members and to encourage more young people involvement. These membership meeting will include tech sessions, dinners, rallies, parties, picnics and tours. We welcome any suggestions and volunteers to organize a membership/social meeting. The cookout at Stemler's, Dinner at the Hall's in Apollo Beach, Dave Cook's Fish fry and a few others are in the planning stages. Also the Sunrise/Sunset Rally will continue for the third year with dates published later. Call or e-mail Sharla Horne or me to become a volunteer. For a rally or tour call or e-mail Glen Getchell at 727/393-5559, glengetchell@ij.net

You may still attend the business meeting if you RSVP to the host a week before the meeting. This request is to allow for enough refreshments for the attendees. The Board thought we could handle the club's business so that it didn't interfere with the social fun of the members.

The Suncoast Region's by-laws along with the information and forms for the Junior Participation Program will be on the web site soon. The Junior Participation Program is to include the 16/17- year old sons and daughters of PCA members to participate in the following areas: as a rally navigator, drive autocross and autocross schools, tech quiz and concours. Parental Consent, Release and Waiver of Liability, Assumption of Risk and Indemnity Agreement and Minor's Assumption of Risk Acknowledgment forms must be signed and submitted for them to participate. Parents will need to have the Parental Consent form signed before coming to the event. Until the forms are available on the web site, contact Ellen Riley for forms.

We have a full calendar for February so mark yours so you don't miss anything. Daytona Race/hospitality tent 1-2, Club Race /48 Hours of Sebring 7-10, PCA Executive Council/National Board Meeting 15-16. We will need volunteers for these events. Call or e-mail Ellen for the Daytona and PCA meeting and Carol/Charles Potts for the Club Race at 813/754-0000.

MERRY CHRISTMAS from your Board of Directors

Membership

As members we need to remember and support the sponsors, advertisers and others who help our club by placing advertisements in our Profile. When you need a service either for your car or for other needs take a look in your Profile to see if there is a vendor who can meet these needs. This will continue to place value on our advertiser's efforts and expense. In an effort to recognize one of our supporters I would like to inform membership of the efforts of Suncoast Porsche in Sarasota. In the last months I have been receiving new membership applications with Suncoast corporate checks attached as payment for the new members dues. Suncoast Porsche is not only supporting our club through advertisements but as gone an extra mile to insure new Porsche owners are immediately exposed to the fun and events of our club. In addition to picking up the first years membership dues, if the Porsche buyer is a local resident Suncoast Porsche is willing to pay the owners first PCA Drivers Ed event, if owner new wishes to attend. These types of efforts need to be acknowledged and appreciated by all our members.

Please remember these types of efforts when you reach into your wallets to purchase items for yourself or your favorite Porsche.

Please welcome our new members:

Jeffrey and Karen Haston of Myakka City join with a 1987 924S

Stephan Bryan from St. Pete. joins us with his 1987 944 Turbo.

Charles and Dorothy Cummings from St. Pete bring their 1992 968 coupe to the club.

Veronica Deguenther of Tampa adds her 1999 996 to Suncoast.

William Strawn from Bradenton adds his 2001 996 coupe to our club.

Keith Hanenian from Sarasota brings his 2000 996 Cab to Suncoast.

Stuart Hostetter and wife Annette transfer in from Lone Star region with their 1982 928.

David Joud of St. Pete joins us with a 2001 Boxster S.

Paul Kilbourne of Osprey adds his 2002 996 Turbo coupe to our club.

Bruce Lee from Treasure Island joins us with a 2001 996.

Portrait

Sadly, this is a portrait of a man not many of you know. On October 13th our friend Jaime Bou, Jr. was fatally injured in an accident turning into the Salinas Raceway in Puerto Rico. Jimmy, as his friends called him, was the Ambassador of their Region, promoting good will, and making sure that we were comfortable when we traveled to their Drivers Education events.

Jimmy was the Past President of the Region and was currently their membership chairman. We will miss him!

WE WANT YOU! 48 HOURS AT SEBRING CLUB RACE

February 8, 9, & 10, 2002

Volunteer Workers

Here is your chance to see the race up close, as you are with the SCCA corner workers. Here you smell the smoking brakes, and hear the scream of the tires as the Porsches go through the turns. This is an experience you will never forget, and you will be thrilled beyond your wildest dreams!

You will receive a free shirt, lunch, and other benefits!

Each corner has a port-o-let, shade, and you are provided water. You can work one, two, or three days, or half days. You tell us the times that you want to work. No experience is necessary, the SCCA worker is in command, and you are there to assist. Our National Club Race committee requires the SCCA corner workers to have two assistants at each corner Enroll Now! Please fill out the enclosed form and mail it to Charlie and Carol Potts as soon as possible. Are you ready to rumble?

I LOVE A PARADE!

Suncoast to host the National PCA Parade in 2003!!!

What a show we will have when 1400 plus people attend Parade at the Saddlebrook Resort in the Land O' Lakes area.

There will be a great Rally, Autocross, Walk-a-thon, Tech Quiz, and the most fantastic Concour d Elegance you will ever see!

Now: What do we want from you? Heeeeelp!

Call our National Chairman Bill Riley and offer your services. He can be reached at 863-619-8983 or e-mail p951@aol.com

This is one experience that you must be involved in. DO IT!

Tech Tips

Lug Nuts

John Mingst, Metro NY PCA

Lug nuts: Always torque your wheels to recommended specifications! This will keep you from over torquing the fragile alloy nuts. The last thing you ever want is to have a nut head separate from the flange portion. This can happen from a lug nut put on too tight, or removing them when hot. The other bonus to torquing the lug nuts is that you will prevent warping of the wheel on the hub. My advice for track use is to use the steel open head nuts for the track and save the alloys for the street.

Your Tires Old?

John Mingst, Metro NY PCA

How old are your tires? Many tires have a build code that is three digits following the DOT mark. Look for the this mark, it says "DOT" then three digits ex. "260" This means that this tire was manufactured during the 26th week of the year 2000. This is a great piece of knowledge when buying used tires, and the seller tells you that he just got them last year.

Painting Brake Calipers

Author Unknown

You can purchase the heat resistant paint from your local auto shop. The paint I use here is red engine enamel with ceramic with heat rating of 500F. You may also use paint for BBQ and over. You also need a fine paint brush, a cup or bowl, masking tape and car jack. Open the front trunk and take out the car jack from the spare tire.

Jack the car up at its designated point. Check your car's manual if you don't know where to put the jack. Raise the car high enough where the wheel barely touching the ground. This way you can relieve the tension from the weight of the car. Loosen all the lug nuts and remove them from the bottom up.

Once the wheel is removed, clean the brake caliper thoroughly. Mask out area that does not require painting with masking tape. Spray a little pool paint into a cup or bowl. Use a fine small paint brush and start painting away the first coat. Let the paint sit for half an hour and paint a second coat. Let the second coat sit for about 45 minutes. Now remove all masking tape. Put the wheel back on. Be careful not to hit the painted caliper with the wheel. Repeat the process for the rest of the calipers. Now let the car sit for 8 hours for the paint to cure. (that's what the paint can direction says) Have fun wheeling around with your bright brake calipers. End of Procedure.

Tech Stop

By John Mingst, Metro New York Region

Now and then I get calls from members who are working on their cars, sometimes for the first time. Then they get to a point where they cannot remember how to put things back together. One of the most asked for questions is the procedures in doing an old change on earlier 911's is to not only drain the oil but to remove the plate and screen assembly to clean out as well. Herein lies the problem. The sump plate has an offset drain bolt will be partially blocked. (I am sure I do not need to explain what happens next). Looking from the rear of the car the bolt is on the left side pointing directly towards the left tire. This is a simple process but often overlooked during reassembly. Now, for my foolproof solution.

I have mentioned this to members many a time. The best thing you can do, before you take it apart, is to take a picture of the assembly with a digital camera, if you have the means. I often do this when working on my car. How many of you have disassembled drum brakes on a car only later to guess where the springs should go. Ah ha! Just what I thought! A picture gives you the chance to see what it looked like before you took it apart. Oh, and about those extra parts that you were left with when you put it back together, you get the picture. (No pun here.) I have a pail full of these that I have accumulated over the years. They seem to come from nowhere. If you do not have access to a camera or a repair manual, make a simple diagram of the part locations. This will certainly help you in the end.
